General Information

The Introduction of Academic Vascular Surgery conference will take place April 18-20, 2019 at the premier, world-class education facility Center for Advanced Medical Learning and Simulation (CAMLs) located in Tampa, FL. By exhibiting at this conference your company will have exposure to national vascular surgery leaders, as well as those entering this dynamic field.

USF Health Mission Statement—The mission of the continuing professional development program at USF Health is to advance the competence and performance of healthcare professionals through the creation of a scholarly environment that fosters excellence in the lifelong goals of education, research and patient care. As an academic center of excellence, emphasis is placed on collaboration with the QI divisions of USF Health and the affiliate hospitals to provide activities that focus on patient care improvement.

Purpose of the Meeting—The Introduction of Academic Vascular Surgery conference is designed for students and residents who are interested in the field of vascular surgery. Students are invited to attend through a competitive abstract process. Nationally recognized faculty members will present information regarding vascular surgery and the role of academia and research. Additionally, faculty will provide instruction for endovascular procedures in the Surgical Simulation Suite at CAMLS.

Target Audience—The target audience is comprised of students, general surgery residents and vascular residents, in addition to some of the top educators in vascular surgery.

Exhibit Space Reservation—Companies wishing to exhibit must submit a completed exhibitor form with method of payment. The exhibits are an extension of the education program. This means of communication is an educational service to participants and provides useful information about developments, products, and services related to their interests and responsibilities. Products or services displayed must further the purpose of the meeting and provide an atmosphere conducive to exchanging information relevant to the content of the conference.

Payment—Please make check payment payable to USF HPCC (University of South Florida Health Professions Conferencing Corporation) and send to my attention. The USF HPCC tax ID is 16-1765073. Please contact me if paying by credit card.

Silver Exhibit Benefits/Fees ($2,000)
- Access to students, residents and national experts specializing in vascular surgery;
- Breakfast and breaks will be held in the exhibit area for greater exposure to the participants;
- Two (2) complimentary registrations per 8’ table top exhibit;
